-  Learn CSS (codecademy)
Learn HTML (codecademy)
Learn JS (codecademy)
-  Professional Javascript 2022 (Udemy)
-  ReactJS (by Miguel Ángel Durán)

PAU VELASCO

FRONT-END DEVELOPER

ABOUT ME

I am passionate about the front-end and enjoy testing projects. I like working on CI/CD following the SOLID principles.

Whenever I can, I try to stay up-to-date on new technologies and always want to do code reviews to learn from myself and others.

ACADEMIC HISTORY

ISDI CODERS

Web Development Bootcamp Full Stack | November 2021 - March 2022

- Full Stack application development with React, Typescript and Redux architecture combined with native hooks easily managing changes in navigation in front-end. While using node.js with Express.js in back-end.
- Javascript test with Jest Unit Testing and React Testing Library.
- Communicate, help, discuss and teamwork with an agile environment, creating applications and handing in liable product.
- Use CSS modules and styled components for design.

EXPERIÊNCIA LABORAL

Front-End Developer

Cognativ INC | April 2022 - Presente

Development of an application with React-Redux both in mobile and desktop version deployed through AWS, user management with the Cognito service through the Amplify library, in the Tactive project related I work in a team of 6 people from all the world following a Scrum methodology.

Technician Oficial 1a - Automotive services

Dream Motors | June 2016 - December 2021

Becoming a technician helped me to deal with and improve my problem-solving skills, and to feel comfortable with unfamiliar issues.
